PROFESSIONAL SUMMARY

Computer Science Student specializing in Full Stack Development, Artificial Intelligence, and Cyber Security. Proven track record of engineering secure, intelligent, and scalable software through hands-on, real-world projects. Equipped with strong analytical problem-solving skills and industry-standard technical certifications.

EDUCATION

GLA University, Diploma in Computer Science and Engineering (Lateral Entry)	Expected 2027
S.M.S Jain Inter College (UP Board), Intermediate (Class 12) – Score: 78.2%	2024
S.M.S Jain Inter College (UP Board), High School (Class 10) – Score: 77.0%	2023

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Python, HTML, CSS
Frameworks: React, Next.js, Node.js, Tailwind CSS
Databases: MongoDB, MySQL
Tools: Git, GitHub, Vercel, EmailJS, VS Code, Linux

EXPERIENCE

Labmentix – Web Development Intern	Feb 2026 – Present
- Built responsive React frontend components, improving UI performance and cross-device compatibility. - Integrated Express backend controllers with MongoDB databases to implement secure web endpoints. - Authored comprehensive API documentation and local setup guides to accelerate developer onboarding. - Participated in peer code reviews, troubleshooting codebase bugs and improving code readability.	
DecodeLabs – Web Development Intern	Summer 2025
- Created responsive, mobile-friendly layouts and modular site sections using React and Tailwind CSS. - Connected React client components to Node.js REST API endpoints to deliver dynamic data updates. - Utilized Git and GitHub for version control, branching, and pull requests in a team environment. - Conducted local component and route testing to ensure strict alignment with visual design mockups.	

FEATURED PROJECTS

Rishabh Portfolio OS (Next.js, React, TypeScript, Tailwind CSS, Git) | github.com/rishabhjain071130-qlitch/rishabh-jain
• Designed terminal-themed developer portfolio featuring CLI console simulation and rate-limited forms.
EduPilot AI (Python, Streamlit, Gemini API, HTML, CSS, Git) | github.com/rishabhjain071130-qlitch/EduPilot-AI
• Built AI career mentor mapping skill gaps and generating custom roadmaps using Gemini API prompts.
Digital Loan System (Node.js, Express.js, MongoDB, Mongoose, HTML, CSS) | github.com/rishabhjain071130-qlitch/digitalloansystem
• Developed Express/MongoDB loan manager with session control, ledger logs, and automated notifications.

CERTIFICATIONS

- Oracle Database SQL Certified Associate** – SQL queries, database indexing, and relational models (Dec 2025)
- Microsoft Agentic AI Certification** – Development and deployment of autonomous LLM agent systems (June 2026)
- Microsoft Web Technology Specialization** – Standard-compliant frontend and backend implementations (June 2026)
- Palo Alto Networks Network Security Gateway** – Network defense and firewall rule configurations (June 2026)
- IBM Machine Learning Roadmap Certification** – Core ML models, pipelines, and data architectures (Jan 2026)
- Google Generative AI Course Completion** – Prompt engineering, LLM tuning, and AI safety practices (May 2026)
- Internshala Cyber Security with AI Training** – Threat detection and AI-assisted security response (Jan 2026)

ACHIEVEMENTS

- Earned 10+ professional technical credentials from Microsoft, Oracle, Palo Alto Networks, and IBM.
- Deployed 3 production-grade open-source applications addressing real-world utility and security.
- Maintained a strong academic record and verified internship credentials in GLA University cohort.
